

BLUES XPANSION PACK

Hi and thank you for downloading this Xpansion pack of Blues Backing Tracks! Even though these backing tracks can be used on their own, I have put them together to be used in conjunction with my lesson: Scales I use For 12 Bar Blues – A Contemporary Approach. If you have the lesson then great, but if you don' t there' s no need to worry as you can purchase it directly from my website by clicking the following link: www.rick-graham.co.uk

You' ll find 5 high quality backing tracks in this package. Each backing track uses dominant 7th shell voicings to enable you to add any colours you want to the basic framework of the chords when improvising. I' ve also given you the backing tracks in 3 different keys to get you used to playing out of your comfort zone! Well, what are you waiting for? Get practicing!

I hope you enjoy the backing tracks I have prepared for you and please don' t hesitate to get in touch with me at any time if you have any questions. I can be reached via the contact page at my website: www.rick-graham.co.uk.

Best of luck and happy improvising!
